Author Index to Volume 10

Agnello, A.: See De Pauw, E.
Bahr, Ute: See Karas, Michael
Bowen, Richard, D.: The chemistry of $C_nH_{2n+2}N^+$ ions, 225
Bruins, A.P.: Mass spectrometry with ion sources operating at atmospheric pressure, 53
Budzikiewicz, H.: Selected reviews on mass spectrometric topics, 89, 175, 281, 329, 453, 519
Budzikiewicz, Herbert: Mass spectrometry of amino steroids and steroidal alkaloids—an update (1982–1989)
Bursey, Maurice M.: Comment to readers, 1, 177 333
Busman, Mark: See Smith, Richard D.
De Pauw, E.: Liquid matrices for liquid secondary ion mass spectrometry–fast atom bombardment: An update, 283
Derwa, F.: See De Pauw, E.
Freiser, Ben S.: See Roth, Lisa M.
Giessmann, Ulrich: See Karas, Michael
Grimsrud, E.P.: Gas-phase ion chemistry within the electron capture detector, 457
Karas, Michael: Matrix-assisted laser desorption ionization mass spectrometry, 335
Lebedev, Albert T.: Mass spectrometry of diazo compounds, 91
Loo, Joseph A.: See Smith, Richard D.
Ogorzalek Loo, Rachel R.: See Smith, Richard D.
O'Hair, Richard A.J.: Anion–molecule reactions of organophosphorus and organosulfur species: Some mechanistic aspects, 133
Roth, Lisa M.: Gas-phase chemistry and photochemistry of doubly charged transition-metal–containing ions, 323
Saraswathi, M.: See Vairamani, M.
Smith, Richard D.: Principles and practice of electrospray ionization–mass spectrometry for large polypeptides and proteins, 359
Todd, John F.J.: Ion trap mass spectrometer—past, present, and future(?), 3
Udseth, Harold R.: See Smith, Richard D.
Vairamani, M.: Mass spectral study of geometrical (*E*)- and (*Z*)-isomers, 491
Yinon, Jehuda: Forensic applications of mass spectrometry, 179

Mass Spectrometry Reviews, **1991**, *10*, 523
